POSTER PREP

Physical Poster Guidelines

You may display a physical poster at maximum size of 36 inches x 36 inches or you can produce a total of (6) A4 pages or a total of 12 presentation slides, 2 slides per A4 page.

- DAC will not supply output or production services.
- We will provide for each poster and area that is 36 inches by 36 inches.
- You are free to use this area in any way (e.g., one large poster, multiple sheets, etc.).
- We will provide thumbtacks (pushpins) to hang your poster on provided cork boards.
- Do not use foam core material for your poster or any other thick/heavy material.
- The poster board will be labeled with your session and paper number.
- Please remove your display before 6:30pm. If you do not remove your display by the specified time, the pages or poster will be discarded.

EDA Research, ESS Research, and User Track Session Poster Presentations:

Each EDA Research, ESS Research, and User Track Session will begin with a presentation, and will end with a 30 minute poster presentation. You will be required to stand next to your poster during the poster period of the session. This is an opportunity for you to provide details to attendees (as well as, for example, any hard copy handouts you wish to bring to the poster session), to have lively, one-on-one discussions, and to make contacts.
